FOR GREENER ENVIRONMENT

May 14, 2012, Bangkok Colliers International Thailand, your professional real estate service firm cordially invites you to take part in the World Environment day on June 5, 2012 with our **"Be A Part Of World Environment Day – Counting 1! Expanding Green Area"** to create awareness on environmental issues and global warming. The aim of this activity is to ignite environmental awareness for the general public counting one by planting a small tree which requires minimum space and care.

Trees can reduce air pollution which is a health hazard and harmful to the environment and a factor contributing to global warming. Planting trees is an excellent way to save our environment, just like adding an air purifier for the earth.

Colliers is doing our share by giving free Hoya seedling (a plant with heart shaped leaves) from 25 May – 5 June 2012 at our head office on 17th fl., Pleonchit Center, Pattaya office (opposite Central festival Pattaya) and Hua Hin office (next to Thai Life Insurance office) with our warmest care to all customers under our management.
